

Congratulations on Registering for SACRED GEOMETRY AND SOUND Training!

I am looking forward to a delightful time of learning and delving into the intricacies of Sound with you. The training facility is a log cabin in rural and quiet Spotsylvania VA, with comfortable seating, a larger practice space and several breakout rooms. It is 10 miles from the nearest eatery and difficult to leave and return given the one hour lunch break, so make sure to pack a lunch. A full kitchen including stove and refrigerator is available.

Address: 31288 Eleys Ford Road, Fredericksburg VA 22407

Note: Eleys Ford Road is spelled both "Elys" and "Eleys". Both will work in getting you there.

Access to the training cabin, A Place to Gather:

From the I-95 / Route 3 intersection it is 13.7 miles / 21minutes to the cabin:

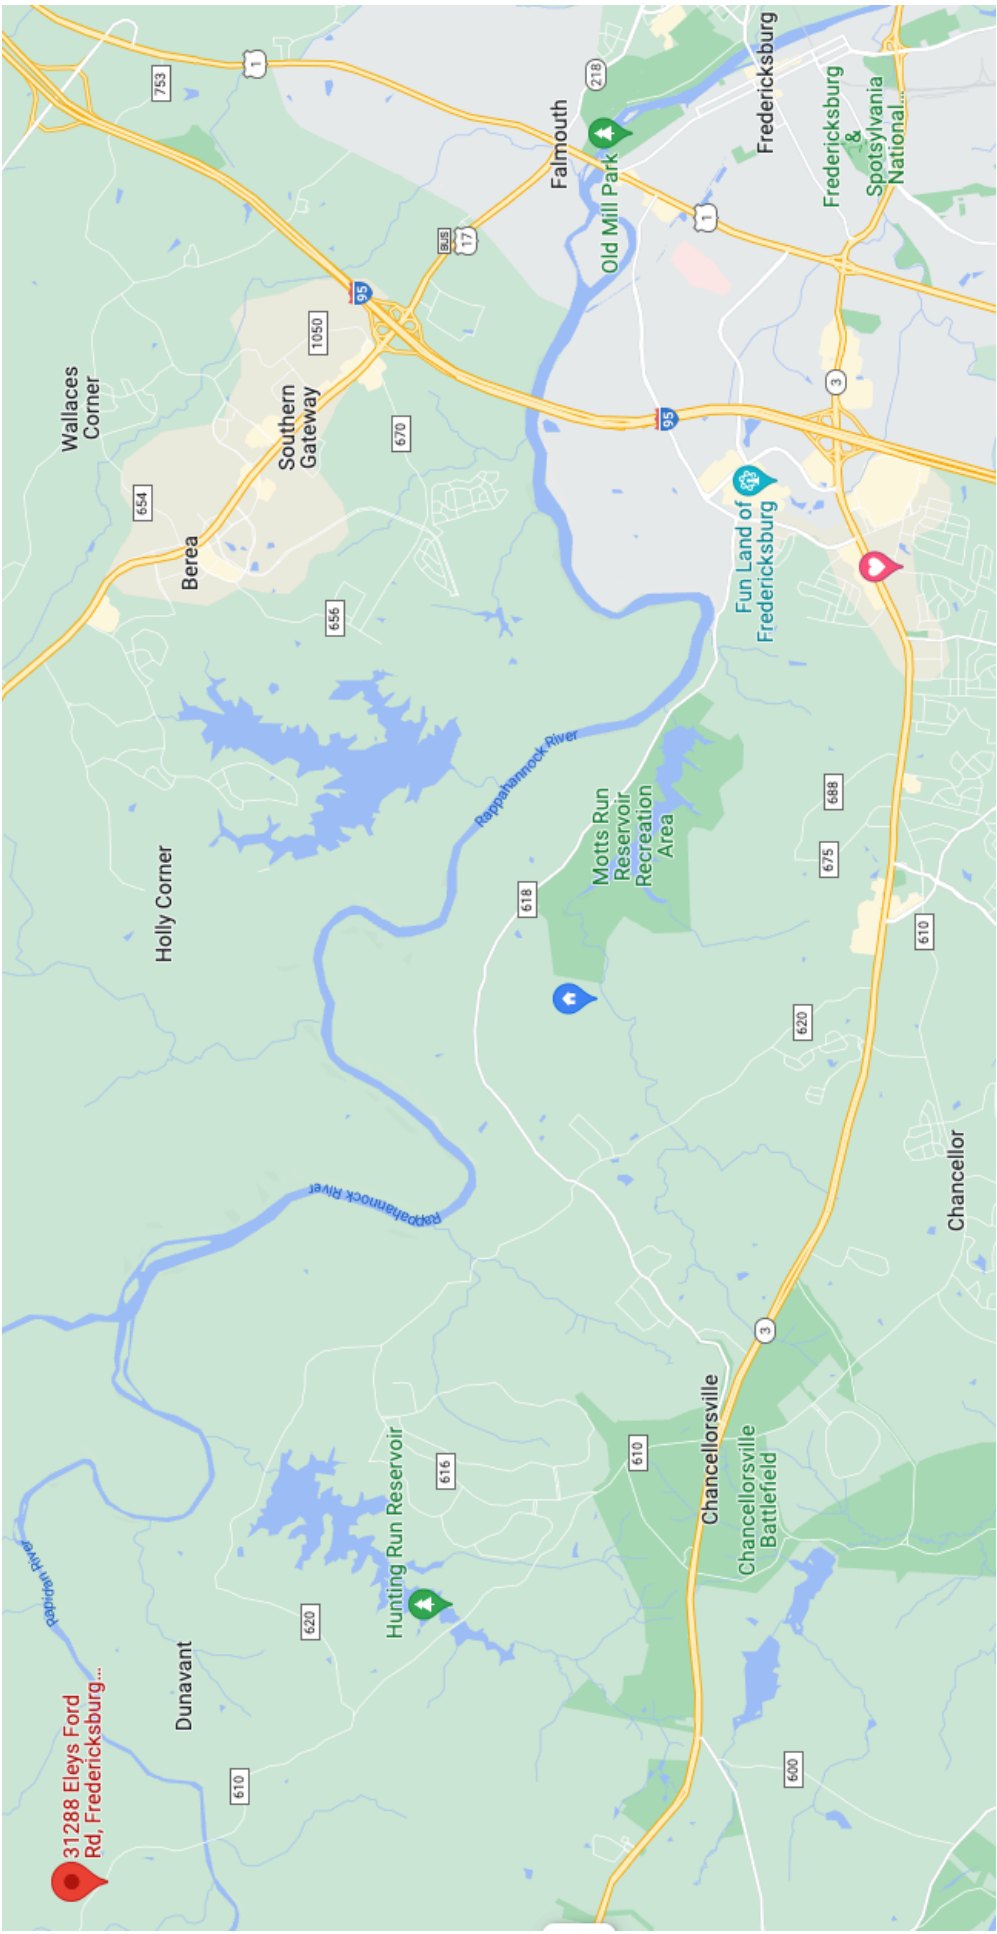

From I-95 take exit toward Culpeper, Route 3 West/Plank Road. In 7.2 miles take a right onto Eleys (Elys) Ford Road/Route 610. In 5.7 miles the cabin is on your left, 31288 Eleys Ford Road.

There is poor cell coverage in this area. It's best to print out these detailed directions and not rely on your phone app to get you to the cabin. Also, there is **no wifi** at the cabin (no communication via text or cell) so please plan accordingly.
